Welcome to Numbers & Oddities, edition 114.

Not a very exciting month, numbers wise. The Turkish numbers station that I mentioned earlier on the mailing list is described in the Utility Round-up section where you also can find the unid stations.

Fritz sent the following comments "Morse on 2680 // 4431 // 6379 kHz. On 14-2 the frequency shifted to 4332 kHz for several hours. I observed that many times and have no explanation. I have never heard any PSK transmissions of 4XZ on the published frequencies heard. Who did?"

Neither did I, Fritz. I guess that these frequencies are reserved for morse transmissions only.
